# Product overview

## Sony Xperia™ U – Powerful and personal

---

Get yourself a front row seat. Enjoy the sights and sounds of your favourite films and music bombarding your senses. On Xperia™ U's razor sharp Reality Display, and in 3D surround sound. Snap photos fast, film videos in super-sharp HD, and share them with your friends in a flash. Enjoy it all with super quick performance powered by a dual core processor. Let the true you shine through with super snazzy coloured bottom caps and a transparent band that changes colour to suit your themes, photos and album art.

### **Made for movies**

Watch every moment from every movie in crystal clear colours. See every smile from last year's party in true detail. Sheer video magic on the 3.5" Reality Display with Mobile BRAVIA® Engine. And with a dual-core processor at its heart, you'll enjoy super-fast performance whether surfing the web or enjoying the latest Hollywood blockbusters from Sony Entertainment Network.

### **Don't miss the hit**

Watching volleyball on the beach? Capture the smash, not the sand. Fire up the camera. Fire off the shots. From sleep to snap in just over a second. And with 5 megapixels and face detection you'll shoot that winning smile. Fancy something more moving? Why not film the whole tournament in razor sharp high definition?

### **Live the sound**

Start your own sing-a-long. Download that summer playlist. Enjoy it all in crisp and loud sound with xLoud and 3D surround sound Sony audio technology. Plug in your earphones, sit back and listen, as the deep bases and high trebles shoot around your head.

### **Add some shine to your life**

Watch the transparent band light up your life. It reflects your favourite artists' album arts with matching colours when you browse through your music, and changes to match the shades in your photos. Or why not choose a theme that matches the exchangeable cap? Then you'll see the transparent band light up in the same colour when you receive a call.

**Sony Entertainment Network<sup>1</sup>. Your ultimate source for digital entertainment**

Feasts for film fans, masses of music. Enjoy a catalogue with millions and millions<sup>2</sup> of songs from Music Unlimited. Or download your favourite hit movies from Video Unlimited. It's all on Sony Entertainment Network. No trips to the store. No late fees. Just pure entertainment. The best tracks from Music Unlimited. The latest movies from Video Unlimited – enjoy everything with one account. It's the perfect fit for a life full of entertainment.

---

*1.Video Unlimited and Music Unlimited are not available in every market.*

*2.The number of tracks available by country varies.*

## Signature features

---

Sony Xperia™ U comes with a range of features as standard. Below is a summary of the key signature features.

### **Xperia™ Timescape™**

#### **The place to meet your friends**

The Timescape™ application manages all your communication with one person in one place. You can effortlessly browse by category your Facebook™, Twitter™, email and text communications, as well as view your photos. Now everything is all together and in chronological order, so you don't have to open different applications to see what's going on.

### **Xperia™ Infinite button**

#### **Everything you want – from everywhere**

Tap the infinite button in the Timescape™ application and smart filter each category of communication by person. For example, when viewing a text message from a friend in Timescape™, tap the infinite button to view a list of all chat messages with that friend.

### **Xperia™ Local connectivity**

#### **More control over your media**

Using Xperia Local connectivity, you can exercise more control over how media files get transferred and stored. For example, you can select MTP mode to transfer files if you want to limit the risk of data corruption or select MSC mode if you want to have more control over the data storage.

### **Xperia™ Home screen application**

#### **The place you call Home**

Customise your Home screen with widgets, shortcuts, folders, themes, wallpaper and other items.

Where's best for you? Email top right? Music player bottom left? You decide. With four extensions to your Home screen, you've got plenty of space to put things where you want. Just remember to flick left or right to find them.
